

Jaydeep Das

Product Designer | AI & Interaction Design

Pune, India (Open to Relocate) | [+91 6290876185](tel:+916290876185) | jaydeepdas06@gmail.com | itsmejaydeep.com | linkedin.com/in/jaydeep-das-8a1169143

Summary

Product designer with 7 years shipping AI and enterprise SaaS products end to end: research, IA, high-fidelity prototyping, and design systems in Figma. Interaction lead on Audi Drive Genie, an in-car AI assistant across voice and display. Design lead on a FedEx field app deployed to 3,000+ devices, and team lead for 3 designers on a B2C launch that reached 40,000+ users, owning sprint planning and delivery alongside the design work.

Professional Experience

Senior Interaction Design Analyst, Accenture | Pune, India | Nov 2024 - Present

- **Audi Drive Genie (in-car AI):** Led interaction design across voice and center display, defining conversational patterns and adaptive UI states that respond to sensor and calendar context without interrupting the driver.
- **GM Finance360 (enterprise web):** Designed a cross-region financial intelligence platform: briefing homepage, KPI drill-downs, plant benchmarking, and AI Insights with a human commentary and sign-off loop across dozens of modules.
- **FedEx Mobile Worker In-Cab, Design Lead:** Owned the redesign of FedEx Italy's field app from legacy Windows handheld to touch-first Android, deployed on 3,000+ rugged devices. Defined the IA and visual system and ran the shift from stylus and hardware buttons to touch and gesture.
- **Delivery ownership:** Scoped design releases with product and engineering, tracked parallel workstreams in Jira, and ran handoff and QA reviews. Contributed reusable patterns to the shared enterprise design system.

Senior Experience Designer (UI/UX), TheMinimalist Solution | Mumbai, India | Apr 2023 - Sep 2024

- **Tata AIG Inspectify (Android, iOS):** Designed an AI-guided self-inspection flow combining visual cues with voice capture, built to hold user error below 40% on unsupervised photo capture.
- **Tata AIG BOLT (web):** Unified policy generation, renewals, and records. A stepper-to-dropdown shift on mobile freed screen space and shortened the completion path.
- **AM/NS India and JSW Inspire Institute of Sport:** Built modular homepage architectures with persona-based discovery serving athletes, parents, donors, and partners from a single IA.
- Design point of contact across client stakeholders; set design system and UX strategy. User satisfaction +25%, task efficiency +20%.

Junior UI/UX Designer, BORN Group | Bangalore, India | Sep 2022 - Feb 2023

- Designed end-to-end flows and card patterns for Cartier MyAtlas (iOS) and contributed to the global design system.
- **Stockmann loyalty app (iOS, Android):** Visual concept was adopted as the tagline for the loyalty programme marketing campaign.
- Ran A/B tests on banners, CTAs, layouts, and flows that lifted conversion 20%.

Programmer Analyst (UI), Cognizant | Kolkata, India | Apr 2022 - Sep 2022

- Evaluated UI components, layouts, and user flows for WCAG compliance and clean engineering integration.

Lead UI/UX Designer, Agpaytech Pvt. Ltd. | Kolkata, India | Oct 2020 - Apr 2022

- Designed web and mobile products for a B2C remittance platform that grew to 40,000+ new customers.
- Led 3 designers through launch: allocated work, ran critiques, planned sprints against the engineering roadmap, and reported to founders. Prioritised UI changes using surveys and analytics.

Earlier: Graphic Designer, ATM Softek (2019-2020), brand and marketing collateral. Graphic Designer (Games), GunjaanApps Studio (2019), layout, characters, and illustration for kids' mobile titles.

Education & Certification

Master of Fine Arts - Sarbabharatiya Sangeet-O-Sanskriti Parishad, Kolkata | Jul 2018

Bachelor of Fine Arts - Sarbabharatiya Sangeet-O-Sanskriti Parishad, Kolkata | Jul 2016

Foundations of User Experience (UX) Design - Google | 2021

Skills & Tools

AI Product Design: Generative AI experience, AI product strategy, AI feature ideation, human-AI interaction, conversational UI, multimodal interaction (voice, touch, in-car display), human-in-the-loop review flows, AI-assisted design workflows

Product & Interaction Design: product design, enterprise product design, interaction design, UX strategy, information architecture, user flows, wireframing, high-fidelity prototyping, responsive design, accessibility (WCAG 2.1 AA)

Platform & Design Systems: design systems, component libraries, design tokens, design operations, design-to-development handoff, documentation

Research & Testing: user research, usability testing, design sprints, user interviews, affinity mapping, journey mapping, heuristic evaluation, A/B testing

Project Management: project management, strategic planning, risk mitigation, roadmap and sprint planning, Agile and Scrum, backlog management, release planning, resource allocation, dependency tracking

Leadership & Collaboration: cross-functional leadership, executive stakeholder management, design team leadership, design critiques, emotional intelligence

Tools: Figma (advanced), FigJam, Sketch, Adobe XD, Photoshop, After Effects, Balsamiq, Miro, Xmind, Jira, Confluence, Notion, Slack
